

## PRODUCT SPECIFICATION DATA SHEET.

### ROADWARRIOR™ AOD

The Russ Moore "Roadwarrior" is your high-performance street ready AOD transmission option if you are a serious pro-street enthusiast. If you want a strong contender to out do the competition, then look to this tough transmission leader.

In this package you get our "Blue-Printed" pump, along with only the best brand-new all Kevlar lined (red) clutch frictions through out the transmission. These provide for significantly reduced heat and gives added torque capacity for greater life and durability of the transmission. This transmission comes tuned with a Russ Moore shift-package. This Roadwarrior AOD from Russ Moore is just packed with "toughness"; it comes with a high-performance overdrive Jumbo Servo assembly (which is 11% larger than the OEM). It receives all new intermediate & low reverse sprag assemblies. All clutches and steels are brand new through out the unit, along with brand new high temperature sealing rings, bushings and gaskets. Upgrades also include high-energy Kevlar band, with these performance transmissions only being produced from the 1988-93 factory cores.

The AOD unit comes with two torque converter "stall" options, a standard factory setting and then a higher performance, high-stall version; but we recommend you talk to our sales representatives about our in-house custom-built upgrade options, some of which include, various stall speeds, upgrades to include brazed fins, steel stators and much more. The AOD4 unit comes warranted with Russ Moore's standard "Roadwarrior" guarantee. Also, each Roadwarrior transmission is statically tested for individual hydraulic circuit integrity before valve body installation, each transmission receives 100% remanufactured & tested valve body. Finally each finished AOD Roadwarrior is fully dyno tested verifying its ultimate performance.
