

PRODUCT SPECIFICATION DATA SHEET.

ROADWARRIOR™ TH400

The Russ Moore "Roadwarrior" is your high-performance street ready TH400 transmission option if you are a serious pro-street enthusiast. If you want a strong contender to out do the competition, then look to this tough transmission leader.

In this package you get our "Blue-Printed" pump, along with a heavy-duty "direct drum" which includes the heavy-duty "intermediate sprag". We use only Raybesto's legendary "blue-plate clutch" technology for the direct & forward clutch packs, which significantly reduces heat and provides added torque capacity for greater life and durability of the transmission. This transmission comes tuned with a Russ Moore shift-package. This Roadwarrior TH400 from Russ Moore is just packed with "toughness"; it comes with all brand new clutches and steels through out the unit, along with brand new high temperature sealing rings, bushings and gaskets. This is a proven product that always comes through in tough applications.

The TH400 unit comes with a standard "stall" torque converter; but we recommend you talk to our sales representatives about our in-house custom-built upgrade options, some of which include, various stall speeds, upgrades to include brazed fins, steel stators and much more. The TH400 unit comes warranted with Russ Moore's standard "Roadwarrior" guarantee.

Remember, the "Roadwarrior" TH400 transmissions does not come with overdrive; however if you want the added benefits of improved fuel economy, less engine wear, less noise, lower RPM's, lower running temperatures then take a look at either the Russ Moore "Roadwarrior" 700R4 or 4L60E series.
