ROADWARRIOR TAKE NO PRISONERS

She winks and feels his engine's performance - the best ride of her life. Russ Moore's Roadwarrior performance transmission leaves wimpy transmissions to cower. Capture young hearts and take no prisoners as you race your Roadwarrior performance transmission into the sunset.

ROADWARRIOR PERFORMANCE TRANSMISSION FEATURES:

- "Blue-Print" pump
- "The Beast" shell (that is three-times thicker than the factory standard)
- Raybesto's legendary "Z-Pak" technology for the 3-4 clutch pack
- Tuned with a Russ Moore shift-package
- Super-duty 4th servo, heavy duty forward & low sprag assemblies
- All clutches and steels are brand new throughout the unit, along with brand new high temperature sealing rings, bushings, and gaskets
- A higher than standard "stall" torque converter
- Roadwarrior comes in over-drive, too, for better highway drivability & much improved fuel economy
- Two series of Roadwarrior (typically series 1 fits up to and including most 350 applications and series 2 Roadwarriors take over with higher torque curve and big-block engines)
